Mr. J. F. Jaudon,
Room 1 & 2,
Real Estate Bldg.,
Miami, Fla.

Dear Sir:

I have your kind letter of the 14th going into details of your proposition and feel interested, but cannot say just the amount of money that I will be able to spare or how soon I can get possession of it.

The writer would want to take a trip down there and look the ground over before investing, and would ask you what the chances are for transportation down the West Coast and then to Hopkins property. While in Fort Myers, the writer was given to understand that the only way to get down there would be via boat. Under the circumstances, the writer hardly thinks that he would be in a position to make this trip inside of thirty days or more.

The writer would not be in a position to put in the amount of money you mention, namely, \$20,000.00. He doubts if he would care to invest more than possibly \$5000.00 unless, after a visit, the proposition looked a good deal better than some others that the writer has in view.

I will admit that the proposition looks very favorable, but would want to know a little more about the organization, the pay of officers, etc., so that there would be no advantage taken of a minority stockholder in any shape or manner. I am saying this without questioning your integrity or honesty in the matter.

THE LOUIS G. FREEMAN CO.
