JACKSONVILLE, FLORIDA May 3d, 1917.

Mr J. F. Judon.  
Miami, Fla.

Dear Sir;-

Your Night Letter of the 2d inst received this morning, another disappointment to record in connection with this property as I have had this property sold five times, each time McCord would write that it was under Option before option would expire I would have lost my client.

I note that you say that you will sell part equity; I have written my associate having this client, asking him to hold him until I can get your proposition and if same is one that I think that our party will entertain I will then submit it to him for his consideration and will advise you promptly, this party knows what this property was to cost, and I will ask that in your naming a price for an interest in the property as a whole that you do so with the distinct agreement that you will protect the price that we name him regardless of what it may be, we will be sure to name a price that will sell it if he is willing to go into it with others, I would like to have you offer a half interest in this proposition to my party and if not a half then a full one quarter interest with an upset price for the interest offered and your guarantee to protect the price named by us.

Yours very truly

*S. C. Littlefield*

P. S.

I would like to have you send me an outline of just what you expect to do with this property so that I can send it to our people
