Dear Sir;-

Your favor of the 2d inst just to hand and replying to same will say that I note that you have placed a value on the land at \$2, per acre, and that you are willing to sell my client an equity in the proposition at that figure, I will ask that in case that I can interest my client in taking an interest with you in the Company, will you protect the price named him by us for this equity, basing your price for the property at \$400,000., for instance if we can sell him one half interest for \$300,000. will you protect this price and pay to us the \$100,000 overage, I am just using these figures to illustrate what I mean. If you will sell an interest please state just what interest you are willing to sell, basing same on a figure for the whole at \$400,000. and your guarantee to protect any price that we name for this interest, if you will let me hear from you promptly I will take it up with my party and will advise you whether or not the proposition will interest him.

I will be pleased to have you send me an outline of just what your intentions are as to the developement of this property, as I would like to advise my client of what the possibilities are in this property.

Yours very truly

A. C. Littlefield
