

Mr Meyer:

You asked me for an expression of
Miami Beach in general.

This year the East has had no cold weather
that has reduced our tourist trade.

The Herald, and News are putting out
too much rotten publicity about
gambling.

We have 67 Counties in Fla and they all
get an equal amount of our Legal
gambling money as well as our
gas money. The Legislature passed this
Legal gambling law and the small Counties
like it and say to us. You asked
for it we gave it to you, and
we are going to see that you
keep it. I say Legalize all gambling
and let the State run it all
instead of just part of it.
We have the reputation of being a Legal
gambling state now.

Miami is jealous of Miami Beach,
and should be proud of it.

Too much talk about the Jews taking
over, I figure that the Jew is bringing
into Miami & Miami Beach 80 per cent
of the New Money.

Miami is overbuilt.

Miami Beach should not build another
house for 5 years and schedule rates
to fill up what they have.

The people of Florida don't like the
Sales Tax.

Washington is keeping people all over
the Union scared about Bombs,
and War, and they are not
Spending money. Washington is
Spending money like pouring water out
of barrel. If they cannot adjust matters
agreeably with Russia they should use
what Bombs they have and get it over with.

If I ever you I should get a
personal expression from the following
even if you have to personally see
them

- Bab Davidson
- Tobin Penshaw
- N T B Rooney
- Red Inedigas
- Arthur Meyer
- August Leiger
- John Frazier
- Russel Pancoast
