

December 22nd, 1911.

Mr. J. E. Ingraham,  
Vice-President,  
St. Augustine, Fla.

Dear Sir:

Your telegram of today, as follows: "Letter Dec. 21st received use your judgement in matter of Dr. Holmberg option.", received. We told him that you wanted more time before deciding on another option, but if one was to be given in a short time that we would request you to give him first chance.

We knew that you wanted the land looked over before giving another option. If you should decide to take State lands in this section and should build a road close to this section it would increase the value of the land.

It has been raining too much for an agreeable trip over the land at present, but winter weather should soon begin. You told me that Mr. Krome was familiar with this township, and I will make an engagement with him for the purpose of finding out what he knows about it.

Yours very truly,

FSM/p
