Mr. Fred'k S. Morse,  
Miami, Florida.

Dear Sir,--

I have read your letter of the 27th, with Mr. Pepper's report on that part of the township that he saw: his report about the marl is very interesting, but the marl does not lie in depths of sufficient thickness to make it profitable to work, so that I think that if you can sell this township, that is, to net us \$3.50, less your commission, that it would be advisable to put it again on the market, and you are authorized to go ahead with it.

Yours truly,

  
Vice-President.
