CAPE SABLE: Prices.

Mr. Fred'k S. Morse,
Miami, Florida.

Dear Sir,--

Yours of the 18th inst., in reference to prices on Cape Sable properties at hand: I send you herewith a map showing the description of the lands conveyed, aggregating 240,000 acres. There are some very fine vegetable lands and trucking lands on this tract of land near Cape Sable and West of Madeira. We think that this land should bring us \$10. an acre, net. If your party would care to look for it however, we would consider a reasonable offer.

Yours truly,

J. E. Ingraham
Vice-President.
