Mr. Fred Morse,

Miami.

Dear Sir:-

I am sending the surveyor in. We have two weeks work here, opening up old lines and producing lines ahead short distances that I can do, so that when I call for a new surveyor, he will only have to try the line and chain it.

Hold all time slips of Brown's until I get in to check them over. I am so writing Mr. Ingraham to-day.

Tell Brown to get on to an older man. Tobin gets scared to stay on line alone and we have to keep a man with him to mind the Boogers away.

Yours etc.
