

Florida East Coast Railway

LAND AND INDUSTRIAL DEPARTMENT

J. E. INGRAHAM
Vice-President

St. Augustine, Fla.

September 12th. 1913

Mr. Fredk. S. Morse,
Miami, Fla.

Dear Sir,

Under cover of your ordinary letter your personal letter addressed to Mr. Ingraham has been received by the writer during the absence of Mr. Ingraham, I shall endeavor to reach Mr. Ingraham at Chuluota from which point he will advise you to the contrary should he wish the work to proceed, in the event however of your not hearing from him to the contrary, I suggest the advisability of following Mr. Brown's advice to call the work off should conditions continue as set forth in Mr. Tobin's letter to Mr. Brown, and allow the work to lay in abeyance until conditions are more favorable for its continuance, in fact I see no other course to follow as it appears to be almost impossible to keep a force of men at work to any advantage.

We have not heard from Mr. Powers.

I am sending t copy of this to Mr. Ingraham with your letter and the copies which you attached.

Yours truly

William Hamilton
Secretary, to Vice-President.
