Miami, Fla.

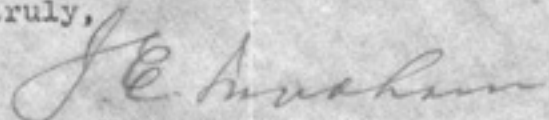

Dear sir:-

Yours of the 5th at hand.

Mr. Powers was in this morning and I have showed him your letter in regard to survey at Cape Sable and asked him to take up with you the matter of securing the services of Mr. W. E. Brown for this work. Mr. Powers will probably see you in a day or two.

In regard to the surveys, we feel that we have got to cut down our expenses and as soon as Mr. Jenkins finishes up at Fulford I want him to come here to take up some work for the Chuluota Company at Chuluota. We will have to have him, or some one else, immediately for this work.

Yours truly,

  
Vice-President.
