Mr. R. E. Hill,
Tax Assessor,
Miami, Florida.

Dear Sir :-

We are just in receipt of a letter from Mr. Ingraham asking us if you will note make up a statement of the Goulds Drainage District taxes for the year 1922 for the lands owned by the Model Land Company.

The way their lands are now assessed for the year 1922, his office is unable to tell exactly what lands are in the Drainage District and which have been assessed for Drainage taxes. If there is a sliding scale of taxes, he would want the amount of taxes charged and assessed on each tract. He needs this information so as to enable his office to make a proper charge against each 5 or 10 acre tract of land that is included in the Goulds Drainage District.

Yours very truly,

PEPPER & POTTER,

By
