

April 10, 1933.

Mr. J. P. Conrad, Secy-Treas.  
Southern Drainage District,  
Miami, Florida.

Dear Joe:

I wish to acknowledge receipt of your printed letter and the accompanying statement showing receipts and disbursements of the Southern Drainage District for the tax year ending April 1, 1933, and I have also noticed some editorial comment in one of our local papers.

Mr. Hoffman, Vice-President of the Model Land Company, which owns quite a large acreage in this Drainage District, was in Miami the latter part of last week and expressed a desire to talk with you about the general situation, but I was unable to locate you on two different days, either at your home or at the office, and he has asked me to see you at the earliest convenience and go over the matter. Therefore, I will thank you to drop me a line by return mail advising where and on what date and hour it will suit your convenience best for me to drop in and see you for a few minutes.

Thanking you in advance for this courtesy,  
I beg to remain,

Yours very truly,

PEPPER AND COFFRIN, INC.
