SUBJECT: Southern Drainage District.

Mr. J.R. Ingraham, President,
St. Augustine, Fla.,

Dear Sir,

At a meeting of the land owners of the Southern Drainage District to-day, Mr. L.T. Highleyman was unanimously elected as Supervisor for the ensuing term of three years.

As per my letter of May 24th, I have the personal promise of the supervisors that there will be no drainage tax account of the Southern Drainage District for 1923 on anything lying south of the township line between Townships 54 & 55.

Report of last year's work by the Supervisors seemed to be quite satisfactory to the land owners present, and their program for next year's work was approved. As you probably know, the Southern Drainage District is carrying on their work on the unit system from taxation money alone, having as yet not floated any bond issue. The financial report showed \$28,000 in the treasury with estimated resources of something over \$60,000 for next year.

Yours very truly,

PEPPER & POTTER
