Mr. R. R. Kerr,  
Perrine, Fla.

Dear Bob:

You will recall I have mentioned to you possibly two or three times in the past year or two, the idea that the Perrine Grant Land Company desires to have someone on the Board of Supervisors of the Southern Drainage District who knows something about farming and drainage conditions within that area, so that the administration can be handled in an intelligent manner --- not that it has not been handled that way in the past, but, we believe it would be to the advantage of the District to have a practical farmer on the Board.

The term of one of the Supervisor's expires next June and I would like to ask you if you would not consent to be elected to take his place. I believe this can be arranged without any friction, and I am certain Mr. Hoffman, Vice-President of the Perrine Grant and Model Land Company, will be pleased to have you on the Board, as I have also talked to him about the matter some in the past.

Please drop me a line, or else try to come in and talk to me about it a little further sometime at your early convenience.

Yours very truly,

PEPPER AND POTTER, INC.
