July 25, 1930.

SUBJECT: Roads - Cape Sable District.
 Condition of Bridge.

Mr. L. W. Loudon,
 Box 764,
 Homestead, Fla.

Dear Sir:

You will recall a visit to this office during the month of May, at which time you solicited the assistance of the Model Land Company in bringing pressure to bear with the Monroe County Commissioners to have a certain bridge on the Ingraham Highway in the Cape Sable section, repaired.

We have had this matter up with the Monroe County Commissioners at Key West through our office in St. Augustine, and they advise that they are unable to find a contractor who will make an estimate or bid on this work, and it is our suggestion that if you could, without much delay, get someone to put in a reasonable detailed estimate or bid for the necessary repairs to this bridge, that we might be able to have it authorized by the Commissioners at Key West.

Please let us hear from you further.

Yours very truly,

PEPPER AND POTTER, INC.
