February 12, 1924.

Mr. J. E. Ingraham, Prest.
Model Land Company,
Saint Augustine, Florida.

Dear Sir, -

We are enclosing clipping of an article from the Miami Herald of Sunday the tenth instant regarding some rubber tree experiments to be carried on by the Curtiss-Bright people in the vicinity of Hialeah which we thought would be of interest to you, in case you have not already read the article.

Had it ever occurred to you that it might not be a bad investment for the Model Land Company to put out about 10 acres of different varieties of Commercial Rubber trees some place to be selected in the Cape Sable section.

Yours very truly,

PEPPER & POTTER,

By

FJP/D.
