Mr. David Fairchild,  
Coconut Grove, Fla.

Dear Mr. Fairchild:

As you know, the Model Land Company, especially Mr. Ingraham its President, has been interested for a number of years in the possibility of the commercial rubber industry in this section of the state, which subject we believe you also have given considerable thought and study, and for your information, are enclosing, herewith, a couple of copies of reprint from Manufacturers Record, issue of Nov. 8, 1923. The photographs are some that this office procured for this article.

We notice an article in the Miami Metropolis of January 21st, that you have Mr. Alfred Keyes, an expert in this line, stationed at Chapman Field, and we wish to offer him, through you, any assistance in this work that this office might be able to render.

Come in and see us when you are in town and have the time.

Yours sincerely,

PEPPER & POTTER,

Per,

FJP/p
