RUBBER INDUSTRY in Southern Florida:

Mr. J. E. Ingraham,
President,
St. Augustine, Fla.

Dear Sir:

We thank you for your letter of the 21st enclosing copy of letter to Judge Stoneman on this subject.

Since last writing you we have been informed that the department at Washington about thirty days ago sent Alfred Kays, an expert on commercial rubber growing, to Chapman Field to make an extensive and comprehensive study and survey of rubber production possibilities in this section, and we are today writing Mr. David Fairchild, offering our assistance and cooperation in this work, and will be pleased to keep you advised of any progress.

Yours very truly,

PEPPER & POTTER,

Per,

FJP/p
