January 14th, 1924.

Mr. J. E. Ingraham, Pres.,
Model Land Company,
St. Augustine, Florida.

Dear Mr. Ingraham:-

We have had several conversations with Judge Stoneman regarding the rubber industry in Southern Florida and we believe he is favorably impressed with the possibilities along this line and has promised, in addition to what he has already written on the subject, that he will prepare and run another story at his early convenience.

In order to get the matter on his desk before him, as a memorandum, we have in addition to talking to him written him a letter, a copy of which we are enclosing and we suggest that it might help matters along a little, if Judge Stoneman would receive a few lines from you just at this time, because of his high, personal regard for you.

Yours very truly,

PEPPER & POTTER,

By
