May 31st, 1923.

Dade County Commissioners,
Miami, Fla.

Gentlemen:

Due to the condition of my health I am arranging to be absent from the state until late fall, and, therefore, will not be able to serve actively during this period on the Committee appointed by you in connection with the formation of the Biscayne Drainage District, and you will likely want to fill this vacancy at least while I am away.

If you can secure his services (and I believe you can) I would suggest that Mr. Geo. H. McCaskill be named as a temporary member of the committee, or a permanent member of course if you see fit. Mr. McCaskill is more or less familiar with what has been done and what is required, and his appointment, I am quite certain, will meet with the approval of the property owners.

Yours very truly,

FSP/p
