

... from Columbus, Ga., and Mr. Pierce has accepted employment with the F. E. C. railway.

Drainage Petitions Out

The committee in charge of circulating the petitions for the formation of the drainage district east and south of Florida City, has been active the past few days, getting signatures. Only one man had refused at last reports, and he was a millionaire who could have financed the entire proposition if he had wanted to. As he only has 15 acres in the district, it is doubtful if he will have much to do with it.

W. J. Posey is to move his store into the building recently vacated by Spike's Pool room.

Mr. Butterfield, of Vermont, was a caller in town Tuesday.
