Mr. L. E. Bishop, Managing Sec'y.,
Redland District Chamber of Commerce,
Homestead, Florida.

Dear Sir:-

This will acknowledge receipt of your favor of the 11th inst., enclosing a clipping of article from the Homestead Leader of February 7th, regarding action of your Chamber of Commerce upon a letter of Mr. J. B. Ingraham, President of the Model Land Company, concerning survey of lands South of Florida City to obtain necessary information for the further consideration of the formation of a drainage district.

In reply to your request that we communicate with officers of The Boston and Florida Atlantic Coast Land Company and Thompson and Jackson Land Company, wish to advise that the officials of both of these Companies to whom this matter would be referred are now on their way to Florida and we expect to see them in person sometime between the 20th and the latter part of this month, at which time we will be pleased to present this matter for their consideration. Should we write to their offices now, our letters would only be referred back to us to be held for their arrival here.

In the meantime, please pardon us for suggesting that the State of Florida also owns a considerable acreage and it may be well for you to ascertain the attitude of its Trustee in this matter.

Yours very truly,

PEPPER & POTTER,

By

FJP/L.
