Mr. Sidney Harrison,
Secy Model Land Company,
St. Augustine, Fla.

Dear Mr. Harrison:

Fervent it may not have come to your attention, we are enclosing, herewith, clipping from Homestead paper of Oct. 5th, regarding another proposed Drainage District it seems to handle a canal from Homestead to Key Largo along the route of the proposed Highway, bonds for which were conditionally voted by Dade County sometime ago.

Of course the article is not correct in its statement that the Model Land Company, Thompson & Jackson and the Boston Company are favorable to the proposition, for we have taken a positive stand against their proposed drainage districts in that section in the past, and as your agents are not expressing ourselves until we know more about this proposition. It may be all right, but there is not sufficient information in ~~the~~ this article to form an intelligent opinion. At any rate the petition referred to will be referred to our Companies if it progresses that far, at which time we can go into the matter more thoroughly, if you have not already investigated.

Yours very truly,

PEPPER & POTTER,

FJP/2
