October Ninth, 1923.

Mr. F. J. Pepper,  
# 80 Edgmont Road, Whitehouse Inn.  
Asheville, North Carolina.

Dear Mr. Pepper, -

I enclose a clipping from the October fifth issue of the Homestead Enterprise regarding the plans of the Redland Chamber of Commerce for the Drainage Canal from Homestead to Key Largo in connection with the Key Largo road.

You will note in the last paragraph in the article that it states they understand that the Model Land Company, Thompson and Jackson and the Boston and Florida Atlantic Coast Land Company are all favorable to the project, whereas, they had opposed it heretofore. You will note that the meeting was held in the office of A. R. Livingston.

I had not heard that either of our companies had changed their attitude regarding this project but as Mr. Potter has talked with Mr. Sawyer and Mr. Ingraham this Summer it might be that he knows something about the matter.

If you will return this clipping I will put it in the proper file.

Yours very truly,

PEPPER & POTTER,

By

*Milo Coffin*
