April 16, 1931.

SUBJECT: Experimental Planting of Sugar Cane on
Marl Soil.

Mr. J. M. Holferty,
R. R. 3,
Miami, Florida.

Dear Sir:

You will recall when Mr. Coffrin and I saw you the latter part of last week that I informed you we expected Mr. Hoffman to be down this week, at which time he would want to look over the sugar cane planting, but this is to advise that our information now is that Mr. Hoffman cannot get down until the first part of next week.

In the meantime, if you are going to be in Miami some day this week or the first part of next week, we would appreciate it if you would drop in the office and talk over a little matter we have in mind in anticipation of Mr. Hoffman's visit. I might add that as you probably already know, we are open only a half-day on Saturday, closing at noon.

Yours very truly,

PEPPER AND POTTER, INC.
