February 24, 1930.

SUBJECT: Sugar Cane - Experimental Planting on
Marl Soil.

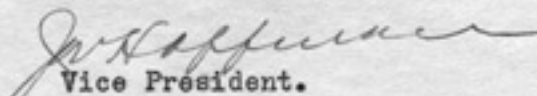

Pepper & Potter, Inc.,
Miami, Florida.

Gentlemen:-

I acknowledge receipt of your letter of February 19th, outlining your conference with J. M. Holferty, living on the front glade near Goulds, relative to experimental planting of sugar cane on marl soil.

I am looking into the matter of securing seed, and as soon as I have something definite will advise you. We are very much interested and you can advise Mr. Holferty that we will assist in every way to demonstrate whether or not sugar cane can be grown on marl soil.

Very truly yours,

Vice President.
