Attention Mr. Milo Coffrin

Dear Mr. Coffrin:

You will see by the enclosed envelope that your letter of June 7 followed me around the country for a considerable time and this will explain my delay in replying to you. The sugar cane referred to in your letter is doing very well, I think, but am not enough of an expert to know just how large it should be according to the time planted.

I have not seen Dr. Sartoris from Canal Point for about three months and if he has been here while I have been away, he has made no report to me as to the condition as he sees it. Would be glad to have Mr. Hoffman and yourself drive down at any time and see these different varieties.

Very truly yours,

J. M. Holferty
