My dear Mrs. Wilson:

These congratulations
of mine are late, I know, but I want
to tell you how glad I feel that
your splendid fight for the Semi-
noles has resulted so gloriously!

I never realized what an immense
amount of work you did in the
interests of the cause nor what
your untiring energy meant toward
its success until recently, when
I have had the pleasure of going
into the matter thoroughly —
Congressional records and so on.
The article by you in "The Breeze"

and the pictures I thought were
very effective, too.

I'm glad you must be that
you have finally come through
the intricate political difficulties
with which you were so evidently
surrounded! It was a great
fight and you deserved to win.

Sincerely

315 N. Monroe St.
