Dear Mrs. Wilson:

I was so sorry that I was unable to stop off at Kissimmee in response to your gracious invitation. And I did want to see you and Mr. Wilson. But I was delayed in the swamps far beyond my time limit and I had to hasten home. There I found all well - thanks to the flood - and a mountain of work. I did have a wonderful trip despite the flooded country traversed. Personally, I hope that the 50,000 acres will go over to the Federal Government

whatever the comment or subsequent  
action of the "Club women" may  
be. And I hope, deservingly.

That the Government will also  
reserve a portion of the B. & G.  
Cigarettes before the exporters get  
in their work. So much to

do! The Great Spirit, may  
he will, both of you glad  
and strong! <sup>Thanking you.</sup>  
and hopes to see you again.

Yours faithfully -
