S. J. YODER, TREASURER

DIRECTORS:

J. P. MOORE  
L. L. HOOKER  
HOMER S. HAND  
A. J. SANFORD

Moore Haven, Florida, Sept 15th, 26.

Mrs Minnie Moore Willson,  
Grand Hotel New York.

Dear Mrs Wilson.:-

Thanks for your splendid letter of Sept 5th, Four days of grandjury work and other matters have prevented my replying to yours before now, First I must tell you I certainly do appreciate the book you so kindly gave me and with your monogram.

If you would be interested in my book on Canaries, or "Caged birds" I would have my Secretary at Louisville send you one, however, it is of little interest only to those owning or raising Canary-birds.

You were kind enough to say you would do all you can etc, but you did not say you favored an organization along the lines I wrote about, please think it over and see if you have a "we-bit" of time to devote to it and take the leadership, if you will do so I will give you my full support, the schools and other places should be taught the value of birds, of their habits and how to protect them.

An organization with much brauder policies and greater ideals than any thus far organized should I think, be organized and begin to prepair for the future.

Your Everglades plan is a wonderful, yet gigantic proposition and I commend you for your work, also do I believe the bird organization under your lead-ership would be a great benefactor in your work for the Everglades snacturay.

When you have time wont you write me in detail? I am leaving about 26th for Oklahoma State Fair where I have been honored by the appointment as judge of the Pigeon and Bird departments.

Our Editor would not use your artilce as it is rather late he claims, in fact he is not in symphony with refunding the debt.

It will be a pleasure to serve you in any manner possible, I do hope you will have the time and inclination to get behind the bird organization on a far greater plane than has ever been dreamed of.

Very Truly yours,

*Howard Fogg*
