

317 N.W. 39th Street, MIAMI, FLORIDA

/27/1929

Mrs. Minnie Moore Willson,
Kissimmee, FLORIDA.

Dear Mrs. Wilson,

I am returning herewith the "Least Known Wilderness of America" and returning it reluctantly. It is a complete presentation of the case. I have written Dr. David Fairchild, 4013 Douglas Road, Coconut Grove, telling him of the book and urging him to make some arrangement whereby it may be re-printed and used as a source of information in the coming legislative session at Tallahassee and at Washington.

I hope that Mrs. Singleton and I may meet you when you are in Miami.

Have you ever seen a story by Dr Robert Ranson. "The Goddess of the 'Glades" ? It is a smashing thing. The first installment ran in the St. Augustine paper. That was plenty. I believe the time is ripe to publish it and I am writing the Dr. asking how he feels about it.

I have been the possessor of a highly prized copy of your book on the Seminoles for some time.

I thank you and hope that we may live to see the Seminoles and the 'glades back in thier place in the scheme of Nature.

Sincerely,

A. G. King
