

317 N.W. 39th Street

MIAMI, FLORIDA

Jan. 21, 1929

Mrs. Minnie Moore Willson,

Kissimmee, FLORIDA,

Dear Madam,

I am obliged to you for the copy of "The Birds of the Everglades" you so kindly sent me and for the article on the futility of draining the Everglades, which I am returning as requested and with which I heartily concur. I believe that if a copy of this could be supplied to every legislator in the coming term, it would materially help toward a sane out-look. I wish it could be reprinted.

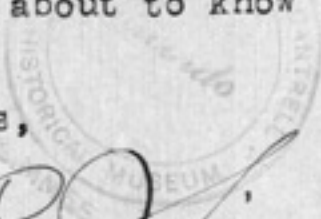

I am sending you a bulletin by Dr. J.K. Small, which I feel sure you will appreciate and also a clipping of one of my newspaper articles.

Mrs Singleton is acquainted with some of the Pen Woman's League members and I hope to be apprised of you coming to Miami, and certainly hope that you will visit the National Park Association offices in the courthouse; I am sure that Secretary Coe will feel it an honor to meet one who has such a record of patriotic service as you have made.

It does seem that at last, we are about to learn just what the Everglades were placed in Florida for.

I sincerely hope that your long battle for the best interests of the State is about to know the joy of triumph.

Sincerely yours,

  
*S. C. Singleton*
