Mrs. Minnie Moore-Willson,
Kissimmee, FLORIDA.

Dear Mrs. Moore-Willson,

I highly appreciate the honor conferred upon me by the gift of the autographed copy of "Osceola the Seminole". I have written, thanking Doctor Kelly, and I enclose a clipping from the Home-stead LEADER-ENTERPRISE, also a copy of something I sent to the Daily News. Somehow, I overlooked the review of the book which they say they published. That is not to be wondered at, however, as I am living on Biscayne Key, temporarily and so escape newspapers, radio, 'phone and get my mail irregularly.

No sympathy is to be wasted on me on this account. We have left our son and his new wife to play at housekeeping in Coconut Grove while I attend to the only business that I have on hand at the moment. Now comes the occasion for sympathy. I am writing a book. Whether it will find a publisher or not, is the next question. So, I am as happy as Robinson Crusoe and the book comes on apace with little in the way of interruption.

I do thank you very much. I have told Doctor Kelly that my main concern in the matter of the National Park, is to see that the Seminoles get a square deal for a change.

I am yours very truly,

Stephen Cochran Singleton
