

Kissimmee Fla. March 6th, 1917

Hon. P.A. Vans Agnew,
Jacksonville Fla.

My Dear Van:-

Early in February I wrote you about The Friends of the Florida Seminoles getting busy about lands for these Indians, from the next Legislature, but I fear my letter went astray, or else you have been too busy, and so have not had time to give any thought to this matter.

What can you offer in the way of suggestions?

You have a practical way about doing things and your ideas are always good.

Do you think we could get a list of the States' lands from Secy. McRea? Or can you suggest some better way? Then too, have you a good form in your mind for that BILL? and who had we better get to draw it up?

Can you be at Tallahassee at the opening or near that time?

Who is the best man in the Senate and in the House to have charge of the BILL? Any suggestions you may make I know will be good, and to the point, and I will be thankful for them.

With kind regards to you and Yours, from Mrs. Willson and myself,

I beg to remain,

Very Sincerely Yours,
