Hon. P.A.Vans-Agnew,

Jacksonville Fla.

My Dear Van:-

Your happy letter came while I was away from home, and I read it with much pleasure on my return. While in Your City I called to pay my respects to you and Mr. Kilvert, but found you out at lunch, at 1-35, and I didnot have a later opportunity to see you.

There has been many factors making up the success of getting the Seminole Indian reservation, not the least of these have been your many years of interest in the work, and also that of Mrs. Fell.

Next month I hope to have an opportunity of telling some of our Indian friends about the reservation and to explain to them some of helps get to follow. Live stock raising, schools - etc. Mr. Moseley has asked me to take a camping trip with him down to the southern end of the state, and as we go I hope to see some of the Indians on the way. This will recall the delightful trip, that you, Capt. Jim and I made to Indian Towne nearly twenty years ago.

I sincerely trust we thred may have another such outing sometime.

With kind regards and best wishes,

I beg to remain,

Very Sincerely Yours,
