

Kissimmee Fla., Feby. 7th. 1917

Hon. P.A. Van Agnew,
Jacksonville Fla.

My Dear Van:-

As the time is coming for active interest in our Seminole Indians having land for homes provided by the next Legislature, I want your good judgement as to the best way to proceed to obtain that end.

How are we to get a list of the lands now available for that purpose? Then who would be the best man to draw the bill? Who would you suggest as the Chairman of the Seminole Committee? It might be we could get the right man named as chairman, if we knew who.

These and many other suggestions, I well know will come into your mind when you get to thinking about our Indians friends. So let me have any your suggestions and advice as to how best to proceed.

Under a separate cover, Mrs. Willson, is sending Mrs. Vans Agnew a copy of a little pamphlet she has just gotten off the press, which I trust you will find time to read. It is the earnest hope this article will help to create a sympathy for our homeless Indians that will result in our next Legislature providing land for their future needs.

I wish we had you here in Kissimmee, for feel with you and your good wives' active interest and suggestions we could make a success this time of getting land for homes.

With kindest regards, to you and your happy family,
I beg to remain,

Very Sincerely Yours,
