Mr. James M. Wilson,  
Kissimmee, Fla.

Dear Sir:

I understand that you have been a resident of Florida for many years, during which time you have acted as a sort of sponsor for the Seminole Indians. These duties, I presume, have given you unusual opportunities for studying the production of different crops raised in Florida. At the present time I am interested, or expect to be interested, in the raising of sugar cane, and will greatly appreciate any information you will be kind enough to furnish me relative to the growing of sugar cane and the manufacture of its by-products.

Am willing to remunerate you for any information of value which you may be able to furnish me.

Yours very truly,

Bradford W. White,
