

DEPARTMENT OF THE INTERIOR
UNITED STATES INDIAN FIELD SERVICE

Ft. Myers, Fla., Feb. 27, 1924.

Mr. J. M. Willson,
Kissimmee, Fla.,

My dear Mr. Willson:

While on the East Coast recently I was approached by Mr. W. L. Coats, a real estate broker, who stated that there was eighty acres of land in Sec. 7, Tp. 35 S. R. 37 E., which was assessed in the name of a Mr. Brown as trustee for the use and benefit of the Seminole Indians. He was under the impression that it was held by the Episcopal Church, but Mr. Massey writes me that there is no record of this land in his office and he has the deeds to all Episcopal Church property.

It seems that Mr. Coates brother has secured a tax deed to this property and wants to perfect his title. The thought occurs to me that this may have been purchased by some society interested in the Indians and may be the property you were thinking of when you wrote me some time ago. If you know anything about it write directly to Mr. Coates at Ft. Pierce,.

Regarding the case of Willson Tiger, would say that I have had him under the observation of two physicians and they report that there is absolutely nothing to be done to effect a cure. He is afflicted with shaking palsy for which there is no known cure and in addition has such a weak heart that treatments would only shorten his life.

One of the practitioners of Abram's Electronic Reactions offered to treat him a month for \$100.00 but the Indian Office has conducted a careful investigation in this method of treatment and come to the conclusion that it is absolutely without merit and refused to authorize the expense. The others say that any treatment will only make him more uncomfortable and be a waste of money.

I am arranging to make him a grant of subsistence such as he may need and make him as comfortable as possible.

Very truly,

Lucien A. Spencer

Lucien A. Spencer,
Special Commissioner.
