

March 30th. 1929

Hon. J.E.Moseley

Ft.Pierce Fla.

My Dear Mr. Moseley:-

I understand that you have been having quite a severe case of the flu, but I hope by this time you are making rapid progress to recovery. As you doubtless know our old friend P.A.Vans Agnew, has been quite sick, but I hear he is now fast getting back to health again. It is a splended thing I think for you to be at Will's home, where you will not have anything to worry about until you get your strehgth back.

I am wondering ,Mr. Moseley, what the New National Park in South Florida, if they locate on there,- will do with our Seminole Indians. I think Senator Fletcher will see to it, that their interest is not jeopardized.

With much love and best wishes, I remain,

Very Sincerely Yours,
