

March 30th. 1929

Hon. F.A. Vans Agnew,
care Knolwood Country Club
White Plains N.Y.

My Dear Van:-

It is with great pleasure that I hear you are rapidly recovering from your very severe illness. Your numerous friends here all rejoice in this good news. Our old friend Jim Moseley has been under the weather with a severe case of the flu, and has now gone to his son Will's home to rest up awhile.

As you probably know Van, there is a plan now on foot to have a National Park located in south Florida, and I am wondering what influence this will make on our Seminole Indians. I have written to Senator Fletcher, asking that he please see to it that our Indians are not molested, or crowded off of the map. I called his attention to the fact that they have 109,100 acres set aside for them in Monroe County, and to please see that their interest was jeopardized.

With much love and best wishes for your continued improvement.

Very Sincerely Yours,
