Dear Mr. Moseley:

I am wondering if you have had any reply from your letter to the Doctor. I certainly hope we are not too late in our efforts. I wrote a friend in New West, who is a real estate operator, asking tracts and prices of the land between Cape Sabel and White Water bay, but have not received his reply yet. I also have a letter out to the Tax Assessor for Monroe County, offering to pay for names and addresses of the owners of the land at Cape Sabel, but his reply has not come yet. Mrs. Jennings I wrote to upon receipt of your suggestion of her holdings, but her reply has not come. I have been thinking of putting an ad in the Miami paper, asking for prices on tracts, located between Royal Palm Park and Cape Sabel. What do you think of the plan? and about what size tracts would be required, do you think for this enterprise?

When I talked with Jim Hillard about his forty, he had his sights away up'. Their location was the best and their land was the best etc. etc. and he thought it was worth \$500. per acre. but I am satisfied a much lower price would buy it.

Could you get any idea from the Dr. as to the acreage he had in mind? I will put the ad. in at once if you think well of the plan. I certainly ought to get some replies soon I think from my letters out.

Sincerely Yours,

J. J. Farmer
