AUG 14 1929

Dear Mr. Willson:

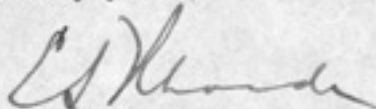

Receipt is acknowledged of your letter of August 2, relative to the plans worked out by Mr. F. E. Brandon for industrial assistance and guidance for the Seminoles in Florida.

I have long been interested in these people, and now that the opportunity has been afforded me, arrangements are under way to have a scientific study made of the situation among these Indians in the hope that some definite and workable plan may be formulated to render them such assistance as may be best suited to their condition and needs.

Special Commissioner Spencer was in this Office recently and the general situation was gone into, with the view of carrying on the necessary activities pending the result of the survey herein mentioned.

I am very glad to have your expression of interest in these people and assure you that any suggestions you make will always have very careful consideration.

Sincerely yours,

Commissioner.
