PUBLISHER'S NOTE

In this interesting souvenir edition, "Snap Shots From the Everglades of Florida," the author wishes to acknowledge the help and co-operation of the Indian Rights Association of Philadelphia, through the efficient work of their Secretary, Mr. Matthew K. Sniffen, in the securing of a tract of 100,000 acres in the Everglades for the Seminole Indian; and also to express a deep gratitude to the citizenry of America for their sympathy and interest in this "Vanishing Race" of Florida's original owners—the long persecuted remnant of the once powerful Seminole Nation.
