

Fort Myers, Fla- Oct' 31/33

Capt' J.F.Jandon
Ochopee, Fla-
Dear Capt' Jandon:-

Have been out town, upon my return find your letter, always glad to hear from you. I have a friend here from New York, who is in touch with BIG MONEY and he knows this country and appreciates the BIG possibilities of the sugarcane interest.

I mentioned your land, its location and he was interested and would like to know if you have or can get sufficient acreage to locate a Sugar crop sufficient to make it worth while and justify installing a sugar mill. If you will write me a letter which I can show him, there is a chance to interest him and I suggested I felt your lands could be had at right price for CASH and if you did not have sufficient acreage to start a Real Sugar proposition, I felt sure you could secure other lands to make sufficient acreage to make an attractive proposition..

Will thank you to write me by return mail, and I assured my friend I felt if sufficient acreage could be secured to meet requirements. That you would arrange a price which would stand a commission which could be cut three ways, between you, he and my self, and its likely a company could be formed so we could have an interest and I assured this party, I felt sure arrangements could be made with you to superintend handling the proposition- put the land in proper shape and superintend all details to bring such a proposition to a successful termination.

Briefly have given you the situation and will thank you to let me have a letter soon as possible and give me the set up, such as you feel will put such a proposition over and if we can show him a real proposition, worth while and one he could recommend to his New York friends, who are able and would be interested in financing a real sugar proposition, supply the cash to pay for the land, also to develop it and stage a sugar industry, such as you have in mind and one which will make your dream come true.

With a letter from you such as suggested, I will submit same to him and feel confident I can get him to come with me, look over the proposition meet you and have a heart to heart talk, and I feel there is a GOOD chance to work out a proposition and get going at an early date. I will await your reply and trust, we can submit a proposition which will appeal to him and if so, I know he is in position to stage a corporation and secure the real money to finance a BIG Sugar proposition including all your lands and if you do not happen to have sufficient acreage, I have advised this party, I felt sure you could line up additional acreage to meet requirements. With best personal regards, I beg to remain.

Sincerely Yours

Geo R. Lynn
